

JOB DESCRIPTION

LOW VOLTAGE TECHNICIANS

Hiring in the following states: NH, VT, MA, ME and RI.

When it comes to your home and business, we understand that safety is always of the utmost importance. That's why at Granite State Technical, we've made it our mission to provide high-quality security and audio products for our clients. As experts in the industry, we have the experience needed to help you design and build the perfect solution for all your security needs. From cameras and digital imagery to facial recognition, thermal scans, and more, you'll find a wide selection of products to help provide you with peace of mind. For more information, visit www.granitestatetechnical.com or follow us on LinkedIn and Facebook.

Position Summary:

We are looking for skilled Low Voltage Technicians to join our team. In this role, you will primarily work on alarm systems, such as security alarms and fire alarms. However, we may have you work on other wiring projects, such as cable installation, fiber optic cabling, or cat 5 wiring. Our ideal candidate has a certificate that follows the standards set by the National Electrical Code (NEC) and some experience working with low voltage systems.

Essential Duties:

- Installing CCTV, Access Control, and Intrusion hardware cabling and other forms of cabling as technology continues to evolve.
- Testing of installed equipment and provide basic programming, such as, adding card readers, cameras and alarm points to any system.
- Performing preventive maintenance and repair as per a client maintenance agreement and/or warranty.
- Troubleshooting, diagnosing and repairing systems and/or equipment.
- Perform additional Low Voltage Technician and related functions as assigned by the team lead and deemed within the general skill and ability level of a productive Low Voltage Technician in our industry.

JOB DESCRIPTION CONT.
